

Technology that serves Bengal.

Build for Bengal · Maintain for Bengal · Scale from Bengal

V Our Vision

To be West Bengal's most trusted home-grown technology partner, making governance faster, fairer and more transparent, and taking Bengal-built digital products to India and the world.

M Our Mission

Deliver: outcome-linked digital solutions for state departments.

Sustain: stand behind every system for years through dependable maintenance.

Extend: bring the same capability to Bengal's enterprises and MSMEs.

Productise: turn proven solutions into products with recurring revenue.

Give back: create tech jobs in Bengal and commit a fixed share of revenue to society.

Transparency

Measurable outcomes

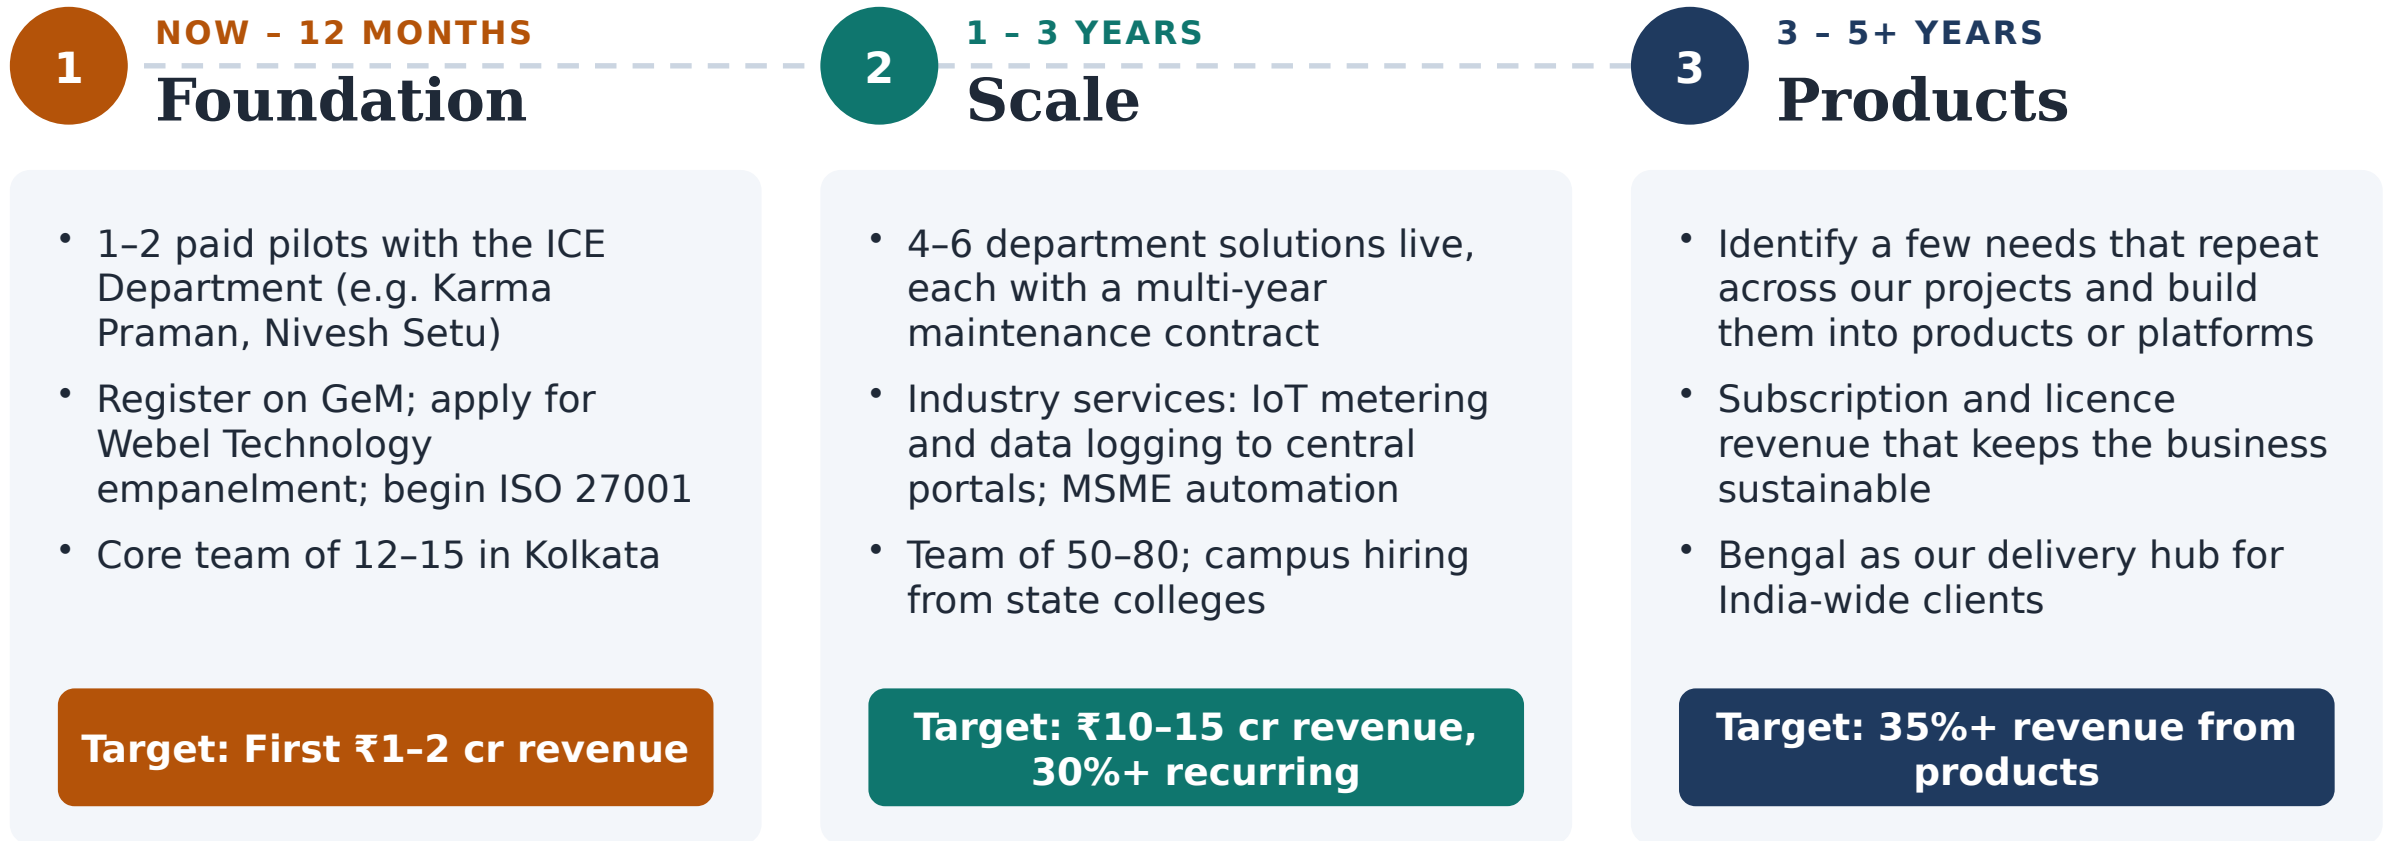

Open technology

Bengal talent

Shared prosperity

Where we are going

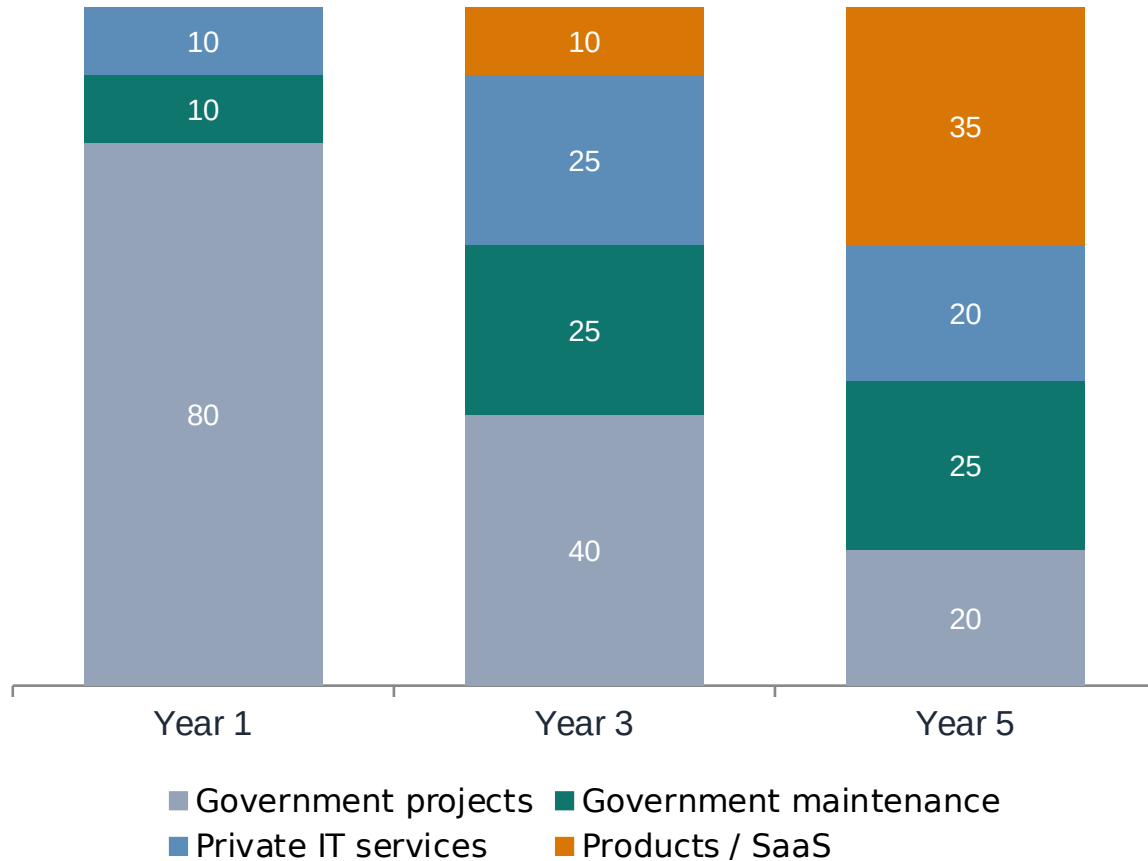

From government solutions, to long-term maintenance, to private IT, to our own products

Short-term focus: prove value to the West Bengal ICE Department with fast, low-risk pilots, then earn long-term trust through maintenance that never lets a system go stale.

How we grow, and how we give back

Planned revenue mix (%)

OUR SOCIAL COMMITMENT

1% of total annual revenue from year one, to a Bengal Social Impact Fund

Once profitable, rising to **2% of revenue or 10% of net profit**, whichever is higher

Focus areas: digital skills for youth, artisan and MSME training, women entrepreneurs, STEM labs in schools.

Community-led: public representatives and local bodies can propose programmes for their areas.

Governed & reported: approved by our Board in Schedule VII areas, with an annual public report.

Kept separate: based on total company revenue and independent of any contract. We win work only through open procurement.
